NUMBER 95

Bourbon Circuit Court.

The Bourbon Circuit Court was convened yesterday morning with Judge R. L. Stout on the bench and Commonwealth Attorney Robt. Franklin at his post of duty. The new docket is light, but a large number of old equity cases to be tried. The only important Commonwealth case to be tried is that of Dave Smith, colored, on the charge of murder. He beat a colored boy to death with a pitchfork handle, near Hutchison, several months ago.

In his instructions to the grand jury Judge Stout said he had inquired among the officials and that but little would be required of the present grand jury. That Bourbon county was to be congratulated upon its citizenship, the peer of any county in the State. He called attention to the violation of the fish and game laws, and to the breaking of minor offenses, such as gaming, selling liquor to minors, &c.

The following gentlemen compose the grand jury:

J. R. Taylor, foreman, Kelly P. Moore, R. P. Barnett, John Marston, J. S. Roberts, W. M. Redmon, R. P. Dow, Dan Isgrig, Newt. Clark, C. F. Didlake, J. H. Wilson.

Public Sale of Stock and Crop.

One of the largest sales of stock, crop and farming implements ever held in Bourbon county will be that of J. A. Howerton's on December 7. Everything that is used on a farm will be sold. Farm is three miles South of Paris. 28-3t

Something They Can All Enjoy.

The whole family can enjoy a bather couch for Christmas. J. T. Hinton sells the best.

The McCurdy Family Resigning.

Richard A. McCurdy, President of the Mutual Life Insurance Company, of New York, has resigned. The date of his resignation depends only on the time required by the Trustees to find his successor.

Quickly following the retirement of President McCurdy, his son, Robt. H. McCurdy, general manager of the Mutual, and his son-in-law, Louis A. Thebaud, the favored general agent for New York, have resigned. Each of these three men have been drawing approximately \$150,000 a year in salaries and commissions from the company, besides their indirect profits in financial transactions with Mutual money.

A tentative offer to head the company was made to James B. Forgan, President of the First National Bank, of Chicago, who once was an Equitable Director. His bank is one of the leading financial institutions of the Middle West. Mr. Forgan declined to consider the offer.

Lawson Has Control.

Thomas W. Lawson said Saturday night that he had received so many proxies that his control of both the New York Life Insurance Company and the Mutual Life Insurance Company was absolute.

Mr. Lawson says that Mr. Harriman is endeavoring to influence the employes of his railways in the interests of the insurance companies, but that the railway men's labor organizations are with him, and if necessary he will make an issue of the matter. He gives no figures on proxies received.

Commercial Organizations.

Since the recent State Development Convention in Louisville, the Louisville Commercial Club is more strongly imbued than ever with the possibilities awaiting Kentucky. It believes that every community in the State can profit by this awakened interest, but it is as firmly convinced that the profit can be greatly enhanced through an organization of the working forces of the different towns. By working forces is meant the mercantile and industrial lines of the different sections. In brief, the Commercial Club feels that a most desirable way to meet and overcome difficulties confronting a business community lies in the organization of a commercial body. It believes this so strongly that it has appointed a standing committee, whose sole duty it is to assist in the organization of business clubs throughout the State and in reviving bodies which have temporarily lapsed into activity.

Mr. R. A. McDowell, former President of the club, has accepted the chairmanship of this committee, and has appointed as his associates thereon fifteen leading spirits of Louisville's commercial world and ten prominent editors in different parts of Kentucky.

The Louisville Commercial Club has no ax to grind in the step it is taking to organize more commercial bodies in the State. Its board of directors feel such an interest in State development, as was shown in the recent convention in Louisville, that it is willing to expend a large part of its funds in sending representatives to different cities to work up organizations of the kind mentioned.

Any community that desires to take the step indicated will receive from the Louisville Commercial Club a copy of its by-laws and constitution, with suggestions as to how to stir up interest in the organization. When the iron is hot enough to be struck, the Commercial Club will send a representative to help mold the body into definite form.

DEATHS.

—Mr. Jack Wilkerson, aged about 78 years, died a few days ago at the County Infirmary. Mr. Wilkerson was a popular clerk at the old Bourbon House in this city way back in the sixties, and a number of our older citizens will regret to hear of the passing away of the genial and generous "Uncle Jack," as he was familiarly called by his friends. He was a brother of the late Mrs. S. E. Tipton, of this city.

—Mrs. Mary Lary, aged about 82 years, died at her home near Clintonville, early yesterday morning. She was the mother of Curtis Lary, of Clintonville, and the late Al. Lary, of this city. She was a most estimable Christian woman and highly esteemed by her neighbors and a large circle of friends. Funeral services will be held this (Tuesday) afternoon, at the Clintonville Christian church, at 2 o'clock.

—Lawson Has Control.

Thomas W. Lawson said Saturday night that he had received so many proxies that his control of both the New York Life Insurance Company and the Mutual Life Insurance Company was absolute.

Mr. Lawson says that Mr. Harriman is endeavoring to influence the employes of his railways in the interests of the insurance companies, but that the railway men's labor organizations are with him, and if necessary he will make an issue of the matter. He gives no figures on proxies received.

Bryan Tries to Buy Sacred Japanese Stool.

Japanese newspapers received by the steamer Shawmut criticize W. J. Bryan, now visiting Japan, because of his attempt to purchase the war stool upon which Admiral Togo sat when the Shinto ceremonial in Nyeno Park at Tokio to celebrate the naval triumph took place. The stool, which was used for a similar purpose for centuries, since 1707 has been handed down in the Ogasawara family of Shinto priests, which family alone has authority to conduct such ceremonials.

As told by vernacular Japanese newspapers, William J. Bryan went from Yokohama to attend the ceremony, and asked to be permitted to sit upon a seat of such good omen. No objection was made, but, so the story runs, Mr. Bryan then tried to purchase the heirloom. As it had sanctity in Japanese eyes there was only indignation. The owners replied indignantly that the war stool was not for sale. The Jiji Shimpo says the chair was finally handed over to Mr. Bryan, at his earnest request, after a family consultation of the Ogasawaras.

Learning after leaving Tokio of the special character of the chair, Mr. Bryan returned it to the Mayor of Tokio, with a letter explaining that he had no idea of the stool's exceptional value to the Ogasawara family, and under the circumstances should not think of retaining it. One Tokio paper says Mr. Bryan secured a common chair upon which Admiral Togo sat from a restauranteur of Nyeno Park.

"TURN your thoughts on the higher things of life," advises Rockefeller. You can't do otherwise, "Brother Rocky," for the "higher things of life" at the present sitting are the necessities of life. Easy enough to turn to them, but rather tough on us poor devils who are compelled to turn away from them.

"WILL there be any tariff legislation the present session of Congress?" was asked John Sharpe Williams the other day. His reply was to the point, viz: "Of course not. Talk of that sort reminds me of the man who bought a bottle of hair restorer from a bald-headed barber. There will be no tariff legislation while Republicans are in power.

You can begin to hear talk of "Santa Claus," and, in fact, Christmas is almost upon us. The reports of abundant crops throughout the country means a liberal opening of purse strings for Christmas spending. Railroads are already taxed to their capacity in handling the holiday purchases of merchants, and manufacturers in all lines of trade are working double force to meet the demand. Paris merchants have made heavy purchases and the holiday stocks will be the largest ever shown here. The goods are arriving daily and when all opened will make a magnificent display.

THE report that Judge James E. Cantrill, of the Court of Appeals, would take his seat on the bench last week was a mistake, for his son, State Senator J. Campbell Cantrill, now says his father may be able to take his seat after January 1. While we are an admirer and friend of Judge Cantrill, yet we feel that he is not only doing himself an injustice, but he is doing the Democratic party an injustice by not resigning. It has been over a year since he was elected to fill this place and he has never been able to do any of the work. Another Judge is needed on the bench badly, and for Judge Cantrill to be drawing \$5,000 a year and to be unable to do any of the work is not right, and right should prevail in the Democratic ranks. The longer this matter is put off, the more Republican campaign material you are furnishing. If Judge Cantrill was a poor man, we doubt that we would comment on this, but he is a rich man and there can be no excuse offered on this line. We love this noble old Democrat and would rather see him on the Court of Appeals bench than any other man in Kentucky, but he has been stricken with an incurable disease, as every one knows, and it is a duty he owes himself and his party to resign.

WE talk much about our natural resources, and we invite all the world to come and live with us because we have good air and good water and good soil and good timber and coal and iron under the ground—in other words, because God has been generous to the land. Well, the truth is, the land was really richer when the Indians held it than it is now; and the water was just as good, the air just as pure, and there were more forests and more iron and coal than there are now.

While natural resources count for much, the community where the people are trained to profitable industry is the community to which other men will go to live, and they will go from all parts of the world. After the first pioneer settlements are made, it is trained men that attract men rather than natural resources. The right training of men is a better thing than the bounty of nature itself. Nature alone never made prosperous States.

We all want Kentucky developed, but why not educate our people for the purpose, and let the wealth of the State go to Kentuckians? At present, some of the richest portions of the State are passing into the hands of Northern and Eastern capitalists, to be developed by educated men from other States, while the hardest of the work will be done by ignorant Kentucky citizens as day laborers.

Let our motto ever be "Kentucky for Kentuckians," and let's make it possible by educating the next generation according to the demands of the age.

Still Undecided.

The Kentucky University and State College football teams are still wrangling and it is undecided whether there will be a game between them at Lexington. If they don't play both colleges should change their colors to yellow. It is quite evident that they are afraid of one another. Play ball, and if K. U. play "ringers" the defeat of State College would be an honorable one and they would receive more glory from the public than the winners.

Sad Parting.

One of the saddest scenes ever witnessed at the State penitentiary at Frankfort was enacted Sunday night when John and Mary Rogers, husband and wife, were taken there from Kenton county, sentenced to three years each for horse stealing. They were separated at the gates, the wife being led to the woman's department of the prison, while Rogers was incarcerated in the men's ward. They will not be allowed to see each other again until their sentences have expired, although the thickness of a stone wall will separate them all this time. The woman wept bitterly at the parting from her husband.

INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way.

Dangers of
Defective Plumbing!

Defective plumbing permits the entrance into the house of sewer gas bearing germs or contagious disease to which the human system readily succumbs. Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures. If in doubt, consult us regarding the piping and repairing defective fixtures with "STANDARD" Porcelain Enamelled Ware, acknowledged as the best sanitary equipment.

Thoughtless Loquacity.

"You and Tom came near having a serious runaway, didn't you?"

"Yes; it was a narrow escape."

"Tell me just how it happened."

"The horse became frightened suddenly and Tom grabbed for the lines!"

"Grabbed the lines? Why, wasn't he holding them?"

It took at least five minutes to explain.

If the coal you bought elsewhere, last time, did not give satisfaction, why not give us a trial? We have satisfied customers all over the county.

Strategy.

"So each of these little prairie towns is jealous of the other's population, eh?" interrupted the new arrival.

"Jealous!" drawled the lanky native. "Why, when they took the census the smallest of the two made everybody eat cucumbers and butter-milk."

"What for?"

"So the population would double up, stranger."

Mills Closed Down.

A press dispatch from Ford says: "After a continued run of several months, day and night, the Burt & Brabb Lumber Company, one of the largest manufacturers of popular lumber in the State has closed down. They have sawed between 70,000 and 80,000 logs and now they have on their yards about 16,000,000 feet of undressed lumber. The company has a shipping capacity of two hundred cars per month, which is sent to all parts of the United States and Canada; a large portion of it is shipped to Europe, where the company have an immense business. About five hundred men are thrown out of employment."

Sure Cure For Pneumonia.

Here is a sure cure for pneumonia according to a contemporary:

"Take six or ten onions, according to size, chop fine, put in a large spider over a hot fire, then add the same quantity of rye meal and vinegar enough to form a thick paste. Stir thoroughly, letting it simmer five or ten minutes. Then put in a cotton bag large enough to cover the lungs and apply to the chest as hot as the patient can bear."

The only difficulty would be in catching the large spider in winter time, says the Louisville Times.

AMUSEMENTS.

The success that Director Weil has had with audiences on his present tour of the country is said to be something extraordinary. In some places, according to accounts, enthusiasm reached the border of disorder. The expression of one critic, "rarely has anything approaching it ever been heard here," has many times been repeated.

peated in original form, which is a rare thing among critics, seldom induced by any attraction. The sentiment is voiced by another, a manager, who wrote, "if the public of any city could know beforehand what they do, afterward, no theatre would be large enough to hold the crowds." Weil's concerts must surely be extraordinary to call out such unusual expressions. Weil's band will be heard at Paris Grand on Monday, Dec. 4.

This train will connect with trains on Kentucky Central for Carlisle Millersburg, Maysville, Cynthiana, Falmouth and Cincinnati. The West bound morning train on F. & C. will leave Paris at 8:30, arriving at Georgetown at 9:04 a. m. connecting with the local South-bound train on the Q. & C., and arrive at Frankfort at 11:20 a. m.

Points on Cookery.

Pumpkin pies with whipped cream and sprinkled with minced nuts or dotted with whole pecan meats is an appetizing variation of an old-time dessert.

White grapes and pecan nuts dressed with oil and vinegar and served on white lettuce leaves made a dainty salad at a recent luncheon.

A tasty salad that bears the name of a well-known restaurant is made finely shredded cabbage, green peppers and celery and a little finely minced red pepper for color and piquancy. Dressed with oil and vinegar.

Diced pineapple and English walnuts, covered with French dressing and served in tomato shells is another attractive and tasty salad. Top each cup with mayonnaise. The pulp of the tomatoes should be removed without breaking the shells and the interior of the cups should be sprinkled with salt and left inverted for an hour or so before they are filled.

Lemon ice filled into lemon baskets—baskets made of the lemon shells—and each topped off with a slice of crystallized lemon, were a pretty addition to a tea table at a recent swell reception.

Into a pot of boiling mutton drop an onion into which a clove has been stuck, a small carrot and a small bit of bay leaf. If the liquor is to be used for soup add a couple of tablespoonsful of barley.

Saved By Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and la grippe. At Oberdorfer's drug store, price 50c and \$1.00; guaranteed. Trial bottle free.

A Turkey With Wooden Leg.

Among a lot of turkeys received by E. T. Fleming, of Scott county, who is buying up "Thanksgiving birds" for the Eastern market, was found a turkey with a wooden leg. The leg had been amputated just below the joint and an artificial leg had been so neatly adjusted with a strip of leather that, as first glance, it was hard to be distinguished from the natural "limb." The fowl's legs were fastened when it was received, and when the fastening was cut loose the turkey got up and stumbled about like a person with a wooden leg.

THE FAIR

Fixing Up for Christmas.

The whole sale force of The Fair has been very busy the past two weeks fixing up for Christmas. The Fair is always the big Christmas store of Paris; but we are planning this year to make it an even grander Christmas bazaar than in former years. And so we had to start in early on the tremendous task of getting the carloads of new Christmas goods marked and arranged.

Our Christmas Showings

Will be the most extensive, the most varied, the most interesting, the most fascinating, ever known in Paris. The Fair will be choked jam-full of new, attractive and little-priced gift-goods in such great variety that one can spend hours on hours viewing the assortments without seeing one-half of the good things.

The Christmas show of China is simply wonderful, comprising thousands of pieces, of every sort and kind, for every conceivable purpose, from the very littlest things up to the biggest and most showy, from the plainest to the most beautifully and daintily decorated.

Of Fancy Glassware and Bric-a-Brac and Fancy Goods of all sorts there are perfectly stunning Christmas showings, replete with most captivatingly novel offerings in utterly indescribable variety.

Of Toys and Dolls, there's one whole floor full; a great palace of wonders for the children.

This whole store, in fact, is now in its Christmas Dress, and everyone who cares for Christmas will want to visit The Fair many times during the next month.

Marrying on Account.

Rev. Mr. Williams was the Congregational minister in the village of Winslow, Me., several years ago. One evening, says a correspondent of the Boston Globe, four young people called at the parsonage. Two of them wished to be married.

The papers in the case were legal, so Mr. Williams performed the ceremony. The other couple acted as bridesmaid and best man. The groom was the son of a well known man in the town, and as the happy couple were leaving the parsonage the young man whispered to Mr. Williams:

"Just charge it to father, parson. It will be all right."

Sunday Card Playing Laws.

There was a time when people in England were forbidden by law to play at cards, even in their own houses, on Sunday. In the royal proclamation against vice, profaneness and immorality, read every session and assize, is the following passage: "And we do hereby strictly enjoin and prohibit all our loving subjects, of what degree or quality soever, from playing on the Lord's day at dice, cards or any other game whatsoever, either in public or private houses or other places whatsoever."

Enlarged Finger Joints.

Enlarged finger joints are the source of annoyance and mortification. Sometimes they are caused by pulling the fingers to make the joints "crack." Sometimes they are the result of hard work, rheumatism or gout. They may be relieved by light rotary massage (rubbing around and around and around on the joints with the thumb and fingers and stroking upward), accompanied by the application of oil of wintergreen.

Not Too Much of a Fool.

"Father says that Algernon hasn't any idea of the value of money," she exclaimed plaintively.

"Your father wrongs him," answered Miss Cayenne. "I have observed that Algernon never proposes to anybody except heiresses."

Perfectly Natural.

Old Gentleman—How old are you, my dear? Little Girl—I was eight years old yesterday. Old Gentleman—Indeed! You don't look to be that old. Little Girl—Ah, how you naughty men do flatter us poor, weak women!

In Memory of Mr. Henry Spears.

At a meeting of the Vestry of St. Peter's Episcopal Church, the following resolutions were adopted:

Again the Angel of Death has visited our little congregation and taken from our midst our well beloved member, Henry Spears. Brother Henry Spears has been a communicant of St. Peter's Church for forty years, all of which time he has been a member of the Vestry, and a large portion of it, one of its Wardens, and he was the Senior Warden at the time of his death.

He was one of the most active members of the Church, always working to do his master's will, advance the interests of the Church and help the cause of Christianity in general.

Therefore be it

RESOLVED, That in the death of Henry Spears his church has lost one of its most beloved members, his family a most devoted father and husband, the community a honored citizen, one well known and beloved by all.

That a copy of these resolutions be given to the family of the deceased and published in our county papers and the Diocesan News, the official church paper.
